

## Attendance

- Ehren Collins
- **SAM WHITE**
- *Rory Brennan-Jones*
- Saul Cardona
- Leo Leider
- **MATT JONES**

## Ehren Collins update

- Over the summer, talked with Sam a lot about plans involving lab and AST
- Created text doc full of ideas
- AST
  - Two megabytes of RAM added
  - Sound card added to it
- Lot of discussion to do with Alienware computers
- How to sell things and what we are going to sell
- We need to buy CMOS batteries
- Every single optiplex we are selling has a dead batteries, so they must be replaced
- Extra batteries go to silicon graphics indigo
- Selling a bunch of hard drives and CD drives and what not
  - Hard drives need to be tested
- Talk of making CIF steam account
- KESTORAGE system — no update
  - Something we are thinking of doing
- Copyparty
  - Inspired by video JNS posted
  - Ehren likes the idea and would consider using an existing CIF hardware server as a storage server for our members

## Sam White update

- Idea: night with friend slop game (e.g. Peak)
- AST
  - Sound card is installed and works for DOS games
- Non-working CRT has been brought to lab
  - Will be used as a prop for activity fair
  - Final piece of equipment needed for a “period computer”
    - Even if it doesn’t work
    - We won’t have power while outside during activities fair
- CIF cookies

## Saul Cardona update

- .

## Matt Jones update

- .

## Leo Leider update

- .

## Additional updates

- New alienware
- Planescape has been banished to the lower planes
- Will have OS installed
- Tech stuff
- “Terminator is its own issue”
  - “No one is eagerly awaiting the rise of terminator”
- We need to move furniture

## Planning

- Our first upcoming event is the Activities Fair
  - Friday August 29th from 3pm to 5pm
  - We get our own table
    - Full table
    - We have plenty of space
  - We should wear our CIF shirts
  - We have our poster (sitting in the lab)
  - We should arrive slightly early
  - Set up
    - AST
    - 
    - Alienware
  - Include sign-up sheet for GIM
- We have membership applications to process
- Our next upcoming event is the GIM
  - Matt suggested having a QR code to a google calendar invite/reminder for the GIM at the activities fair
  - Saul can make a poster for the GIM
  - Sam knows an RA in first-year housing
    - Posters can be placed in elevators to avoid putting them in every floor
  - Location + time

■ General Interest Meeting September 1st 2-3PM Douglas 404

- First floor meeting: next week on Sunday (not today)
- Future tech seminars
  - Idea: virtual machines
  - Repeat of latex seminar
- We should schedule the first tech seminar
- Second tech seminar in October and third tech seminar in November
- Idea: Ehren does latex seminar in September, Sam does VM seminar in October, Ehren does a seminar in November
- Ehren should resume Discord events
- We will do Open Lab this upcoming weekend
- Game night on Saturday (board game or video game)
- September tech seminar
  - September 20th, 1 to 2pm, Douglas 404
- Meeting with Reslife tomorrow for Ehren, Rory, and Sam
- 1 new/different event a month (maybe doesn't have "game" in the name)
  - Cooking
  - Some sort of social
  - "Set off the fire alarm tonight"
  - Dungeons & Dragons
    - Could Winter host a one-shot again?
  - Ice cream social
- We have to recruit in classes
  - We should delegate tasks in regard to this
- Recruit people in lectures
  - CSC 171,172,173 160 sequence
  - MATH 150, 141, 161, 162
  - ECE 114
  - Neuroscience (interesting idea from Matt)
  - (Computational) Linguistics?
- CSUG collab?
- MIF collab?
- Pokemon club?
- URSGA collab?
- Get URTV + JNS to make recruitment video
- Smash club collab?
- VGDC collab?
- Co-sponsorships
- Posters
  - Digital signage
-
