

## Attendance

- Ehren Collins
- Rory Brennan-Jones
- Sam White
- Leo Leider
- Matt Jones

## Updated interview

- Ehren has created a draft:
- It has rubric-style questions now
- It is a good start, but could use more questions. Ideas:
  - Interest in contributing (possibly redundant with previous ideas)
- Use fun questions as a way of testing engagement
- To visit later
  - Does CIF serve a purpose other than being a community?
- Over the course of the meeting, we updated this document
- We figured out a font to use
- New fun question: what is your favorite font
- Rating sheet and interview questions are separate documents

## Tech

- Delete some of the VMs on Normandy

## Website

- No updates

## Mission statement

- The statement does not need to be updated because we provide tech support through our computer lab, helping people who ask, etc.
