

Attendance

- Ehren Collins
- Sam White
- Saul Cardona
- Rory Brennan-Jones
- Matt Jones
- Leo Leider
- Timothy Tidd
- Krish Jain
- Jacob “Hat Jacob” Greenberg

Previous events

- Movie night
 - “Was fun”
- Pokemon collab
 - Successful
 - Pokemon thought that their attendance was lower than expected
 - Most of the computers were in use for some of the time
 - At most 7 computers were used during the event
 - The wii was used
 - The pokemon eboard played during the entirety of open lab
 - The “one random AIF guy” showed up
 - According to Pokemon club, 3 non-board Pokemon members and 1 random non-pokemon-member showed up.
 - They say it’s because the CIF basement is out-of-the-way.
 - The eboard got lost in the tunnels because they’re mostly freshmen. The collab was their first time in Anderson ever.
 - Concern: CIF is out of the way and it’s hard for freshmen to find. (This is what happens when you try to recruit children.)
 - For future collabs: post maps with directions to Anderson and our computer lab.
- Open lab also happened before
 - Pokemon eboard was there and they moved some chairs

Future events

- Floor meeting tonight
 - Voting for amendment will happen
 - Matt will send everyone a link to vote
 - We need 13 people to answer and say yes
- Sam’s VM tech seminar this Saturday
 - We should advertise this event

- We have received confirmation of registration from CCC
- Saul will make a poster for this next tech seminar
- Virtual box will be used because VMWare cannot be easily acquired now
- Halloween board game night
 - Scheduled for November 1, just in time to celebrate the Day of the Dead
 - We should advertise for it
 - Conflict with midnight ramblers cosponsorship opportunity, but we don't care because Winter said it's not worth it
 - Idea: we should have a Mexican theme because of Day of the Dead.
 - There should be food at the event, probably pizza since Tacobell is expensive
 - Free food could improve attendance
 - Another idea: we could buy bags of candy since it's cheap and Halloween-appropriate
 - Note: this is not a major event, even though it is more significant than normal board game nights.
- VGDC collab
 - Deadline for registration of Rettner 201: November 1st
 - The time is finalized, so we can announce it
 - Nov 8, 2pm, Rettner 201
- Formal game night
 - We should reserve Feldman Ballroom soon
- CIFsgiving
 - 22nd at 8pm

Alumni donations

- Nothing on Ryan for emails (regarding alumni donations)
- We should implement a wishlist
- Reslife wants a definitive yes or no regarding whether we will receive alumni donations
- We have a decent list of alumni

Tech updates

- None apparently

Constitutional amendment

- Voting begins tonight
- We will keep the nuclear clause despite Ryan's misgivings.
- Presidential binder is referenced in the definitions, which is not great
- We will keep disciplinary hearings because they are only way of dealing with off-floor members
 - Note: we will not handle misconduct because it is not authority
- We are happy with the changes that are made

Misc

- Registration is coming up, so people are beginning to ask about CS courses to take next semester
- Idea from Matt Jones: CIF holds an event where people can show up and ask us about course advice, like an in-person AMA
