

Attendance

- Ehren Collins
- Matt Jones
- Rory Brennan-Jones (virtually)
- Leo Leider
- Sam White
- Saul Cardona

Previous events

- Latex workshop
 - Room booked for LaTeX workshop
 - 1 week ago, we realized we scheduled the wrong time so we rescheduled for the correct time
 - Somehow, our request did not get through and another group (Christian Fellowship) was able to put in their request (which happened after ours) and have it accepted. So in other words, CCC decided to prioritize the other group over ours.
 - Ehren and co were kicked out by a girl from the Christian Fellowship
 - The takeaway is to schedule the room at the correct time in the first place because rescheduling might not succeed (despite saying that it succeeded)
 - So the LaTeX workshop was not a success
- Video game night
 - Video game night was small but successful
 - Adam Sarjent showed up
 - Erman showed up and spoke about VGDC+CIF collab

VGDC collab

- VGDC would want the collab to be in Rettner 201. That would require us to transport our consoles and other equipment there.
- CRT is not particularly portable, so we need to bring different TV monitors
- We need 1 week of advanced notice for marketing
- Cannot conflict with Pokemon collab
- We cannot do it next weekend since neither us nor VGDC will be ready
- Possible dates that work for both of us
 - 4th of October
 - 8th of November
- Not booking Rettner 201 on October 4th is an option but is risky
 - If we go this route, VGDC should agree with us to take it
 - Alternative: ask VGDC if it can happen in a room we can book in fewer than 14 days
 - Alternative: go with November 8th date and register Rettner 201

- VGDC says that Douglas 404 is too small

Pokemon collab

- We will have the collab with Pokemon club on October 18th at 5pm in our lab.
- The pokemon members will play pokemon games on our equipment with installed emulators.
- What we don't know what games they will be playing and what emulators they will use.
- They could be doing a speedrun / race or 1v1 pokemon showdown
- Once we know what they are doing, it will be very easy for us to set it up

Various topics

- We should post public events on CCC that advertise food
 - Con: sorority girls could show up, steal our food, and leave. This happened during a s'mores night once according to Ehren.
- New membership application from student who does not exist in CCC / the system
 - Math major, supposedly senior
 - Might not actually be an undergraduate student, so we should confirm with her if
 - Rory: I will reach out to her
- Future events
 - There will be a board game night next weekend
- Dues
 - The deadline is coming up.
 - Next weekend is the last weekend to turn in their dues
- E4E
 - Rory: I need to work on that. Coursework and graduate school applications have been keeping me busy
- CIF collaboration in this year's SIMCON is not settled, but we don't have to worry about that for many months
- Idea for future event: SIH alumni event. It could be a collaboration between all the SIH groups and it could happen on Meliora weekend each year.

Meeting with alumni

- Robert Halm and his fellow alumni can meet us next weekend on the 28th
- He gave us two times. We can't take the first time because the URSGA president is unavailable, and we would like the URSGA president to attend
- Ehren will suggest 6:30pm on Saturday to Robert

Constitution

- Isabela the alumna has concerns over our constitutional amendment
 - Specifically regarding our ability to expel members

- Not housing expulsion, which is beyond our capabilities (all we can do is recommend it)
 - Typo: extra probation that was supposed to be deleted
 - Easily fixed
- Possible answer
 - Idea we are most in favor of: board reserves the right to expel members for any reason with due cause
 - We should ask Ryan if this idea is ok
 - Ignore these bullet points:
 - We want to avoid any disciplinary description because that is not our jurisdiction anymore
 - The disciplinary hearing is very bureaucratic, but we might need to keep it (at least partially)
 - Idea: we keep the disciplinary hearing to expel members, but we make it less bureaucratic
 - Important thing to note: if a member is misbehaving, revoking their membership solves nothing immediately
