Computer Interest Floor

Board Meeting!
November 8th, 2026
Anderson 310

- Attendance
    - Ehren
    - Sam
    - Stephen
    - Me, but I don't matter.
    - Matt
    - Tim
    - Leo
    - Kevin
- The MJ Quote of the week.
    - Something about vision and shadows. Very impactful.
- Past Events
    - Open Lab
        - Yep. It happened. :)
    - Video Game Night
        - Good attendance
            - 14 people!
- Future Events
    - Open Lab
        - Yep, it will happen.
    - Web Hosting Tech Seminar (hope Stephen didn't forget)
        - 12th at 6 PM?
        - Stephen *didn't* forget! (He just hasn't made anything yet)
        - Leo, do we have a room for this? Can it go in CCC?
            - It's not in CCC yet, we don't think.
            - We'll see if we have a room reserved.
                - Not yet. Thus, it will be done.
                    - Hubbell is available! (Bad idea, but funny).
                    - We're doing it in Douggie 407.
        - As a side note, https://users.cif.rochester.edu is live!
    - Cookie Decorating
        - Nothing new here.
        - We reached out to AIF, but we've heard nothing from them thus far.
            - They still don't have a president, or a Vice President.
                - Nominations were opened on the 26th of October.
                    - Elections will be *sometime* soon-ish.
                        - We hope.

            - Cookie Decorating *might* go on hold if AIF is in this state.
    - CIFSGIVING
        - We sent out a reminder for the form today.
            - People should bring stuff, AND fill out the form! :)
        - Make sure to include it in the Wednesday night live.
        - Ehren has a concert that starts at that time, so he might not be able to show up.
- Collabs
    - MIF
        - Ranking has officially started. **If you have not voted yet, do so!**
        - As of **8:46 PM**, these are the leaders:
            - WINNERS
            - Undertale
            - Still Alive
            - Nature's Crescendo
            - Creator
            - Main Theme
            - Flower Man
            - Going Down
            - Champion Cynthia/Battle! Champion Cynthia
            - Lumier
            - I am Gonna Claw (Out Your eyes then Drown You To Death)
            - Intro Theme (Jazz Version)
            - Enter Pharloom
            - Carnival Kerfuffle
            - Halo 3 Warthog Run
            - Dragonborn

            - LOSERS
            - Gwyn, Lord of Cinder
            - Rage Beneath the Mountains
            - Onett Theme
            - Terra's Theme
            - To the Wilder
        - Someone might need to pay for sheet music (we're talking maybe $3/song)
            - I think we can probably cover at least some of this.
            - Please exhaust Sibley and Interlibrary Loan first
                - Well, yeah. But like... I don't know how much Video Game music Sibley will have
                    - Or ILL, for that matter.
        - Can we talk rehearsal schedules?
            - Ehren has been talking…
                - Bro ghosted them.

                - We are kind of of the opinion that MIF's idea for having separate rehearsal times is not really very applicable for this instance.
            - We'll have a slideshow of the games, and gameplay footage.
            - We're probably going to max out at 30-35 people
                - Minimum about 15.
            - Eventually we will also be putting together a presentation to go along with the concert
                - Which means getting gameplay footage
    - CSUG
        - They exist
            - We believe, anyways.
    - CSH
        - No word back from them
            - https://tenor.com/view/rochester-institute-of-technology-rit-gif-10736354842923533509
    - We should E-Mail LUG.
        - Yes.
        - I know it's not a collab, but it seemed pertinent to put it here.
- Money Update
    - Sam, give us our checks, Mr. John Checks.
        - Bro has all of the checks.
            - He's going to go and get them now.
                - Nevermind.
                    - Apparently someone lied to Matt.
                        - Matt will go and yell at them.
                            - *yay*.
                                - He'll do it soon.
- TechnomalogicallymagicallyallyamagimagicaltechnolomagicalmysticallytechnologicalmysticalmagicaltechmologicaltranscendentlysupernaturaltechnologymolyMmmmbeanstechnologybrotherprinterneedstodieologysticalocialbrothermakessharpenersAGICALology updates
    - IT…
        - They're… not mad at us?
            - Weird. Who would have known.
        - They still haven't fixed the delegate E-Mails.
            - … Still.
                - They're still trying to figure it out.
                    - Still.
    - MIF…
        - Their web server got put down.
            - Taken out back
                - Shot it, brutally.
                    - Gone.
                        - No trace of it exists.

                - No trace of it will ever exist.
        - The PHP vulnerability was exploited : (
        - Their website has been remade.
            - With security now!
                - Mmmmm 300 character randomly generated passwords.
    - Working on Migrating stuff over to Hosnian.
        - Some new things are publicly accessible that weren't before!
            - fire.cif.rochester.edu (For the Anderson Fire Alarm)
            - panel.cif.rochester.edu (Work In progress, replacement for Portal)
            - users.cif.rochester.edu (For User pages to be hosted externally)
            - ursgdash.cif.rochester.edu (For URSGA)
            - counter.cif.rochester.edu (Web Counter for the users page).
            - The ranked choice site for the MIF event
        - Other things were migrated, and are still private
            - Nauticock Discord Bot
            - Mail server (hermes)
            - Autoupdater
            - Autoupdater part 2
        - Other things retained being public, but were still migrated.
            - account.cif.rochester.edu
        - Complicated networking nonsense needs to be figured out, but we're working on it.
    - Oh, Minutes.cif.rochester.edu exists now.
        - So people can upload pdfs of the minutes to the website properly.
- Constitution (joy)
    - Its not happening in time lol
        - *no*...
            - I'm so surprised.
                - I had *so* much faith Reslife would do it in time.
    - If Reslife doesn't handle it in time, do we want to just ratify the new one we made?
        - If it falls through this semester, it will have to happen in Spring.
- E4E
    - No revisions were made, nothing was said, it's probably fine.
- No MJ Meeting.
    - : (
- Participation points…
    - Matt should send out second reminder emails relatively soon
        - This way people can show to CIFsgiving
    - How many people are below the threshold?
        - 4 people that matter, are in the red.
            - 3 of these are on-floor members.
            - 1 is technically an off-floor member.
        - 3 people are close, but on-path. (In the orange)

    - We will probably be building something to manage the participation point stuff in the near future.
        - It takes *very* long to update the present system, and it has… flaws.
- Vacancies next semester!
    - There will *probably* be a vacancy next semester, due to a member graduating early.
        - We should get a firm yes/no by November 10th.
    - Once we get a confirmation, we'll send a message to every active member, to see if they want a spot.
    - The form has to be submitted to Reslife by November 28th, 2026, with who is replacing the room, and if the room will be replaced.
