- Past Events
    - Video Game Night
        - Great attendance (and an application)
        - It went *really* well.
            - Like **really** well.
        - What made it go well,
            - We did a lot of stuff early on, to alert people of our presence.
            - People have been pulling in friends and whatnot.
            - People are in the discord, and have been notified of things happening.
        - What could we do better?
            - Seating.
                - There really isn't enough seating for that many people in terms of couches.
                - We can move like 3 chairs over to the front before Video Game Night starts, and that'll work.
    - Tech Seminar
        - It went "alright"
            - Not particularly well attended, but that's not uncommon.
            - Tech Seminar could have gone a little bit slower.
            - List a start time, not a range time on poster materials.
        - People who attended (who we didn't know), were interested in switching to Linux, which was the purpose of the event! :)
    - MJ Meeting
        - Nothing two major on the first half.
        - MJ has entered the "Constitution Train"
            - Possible updates with the constitution coming up?
            - Epic fight over disciplinary actions.
                - Mmm Committees.

                - With Pub Safe, multiple RAs, a ResLife employee and the CIF President.
                    - This… is not realistic, nor good.
            - He seems to not know that Reslife fought to get rid of the disciplinary section.
        - MJ will see which version of the Constitution ResLife is actually operating under.
            - We want to make sure they didn't just accept the "re-write" as the new version without us ratifying it.
            - If we're lucky, ResLife *might* finish looking over things by the end of the year.
                - And that's a big if.
                - But MJ wants it to be ratified in 3 months.
                    - An optimistic take, to be sure.
    - He's coming to next week's Board Meeting, and a few more.
        - 27th of September,
        - 18th of October,
        - Sometime in November.
