

# Computer Interest Floor

Board Meeting!  
April 5th, 2026  
Anderson Tower, Floor 3.

---

- Attendance
  - Jacob
  - Matt
  - Tim
  - Sam
  - Ehren
- Past events
  - Open Lab
    - It happened. We set up stuff for archipelago, which makes sense, given.
  - Archipelago
    - It was cool. People seemed to like it?
      - There was some comment for there not being much for people \*not\* involved directly in the archipelago.
    - The people involved went for all 4 hours, they did not finish.
      - And they want to go and complete it!
    - It very much seems like something we can build off of and improve! Meliora!
    - We should do it again soon (perhaps finish the save before the end of the semester)
      - Let's also, perhaps, do it next semester, albeit with some minor improvements.
        - Rethink DOOM and Minecraft, methinks.
- Upcoming Events
  - Formal Game Night
    - FOOD! We need to talk about it.
      - We want Ryan to order it (So that it comes from Alumni Budget, I would presume).
        - Some discussion was made on whether or not Ryan would be able to pick it up, but we should probably just do delivery.
      - Make sure we have a vegan/vegetarian option, as per usual.
      - Sliced brisket, Mac and Cheese, Pulled Pork, etc.
        - Matt will put the menu in Discord, and we will decide exactly what we want.
      - We'll vote on approving the cost when we have a number.
  - IFnic

- Nothing new. Someone made a flyer, but very few logistics have actually been figured out.
  - Maul: Shadow Lord Showing
    - Members only every week, when it comes out.
    - 4 PM on Mondays, ending on May 4th.
    - The first one will probably be a bit longer, since it's two episodes, that will be tomorrow.
  - S'mores night
    - Firepit? We should start this process soon if so.
    - Senior Gifts and Nauticock! It's that time of year!
      - We can open up Nauticock nominations during this coming floor meeting (In that we'll open it up in 45 minutes).
    - Let us see if we can acquire some wood for free (That is not an envirollog).
  - Future archipelago
    - People liked playing, and they want to do it again.
      - They can do it whenever the 4 or 5 of them all are available, and go into the lab.
  - Collabs?
    - The answer is probably still /shrug(you'd be correct)
    - Classic.
- Technomologicallymagicallyallyamagimagicalltechnolomagicalmysticallytechnologicalmy sticalmagicaltechnomology updates
  - Random Guy and his server(s)
    - We have new Server, plural. :)
  - Vulnerability Management meeting (and prep before)
    - I believe we have a meeting soon, so we should probably spend some time making sure spscanner is actually installed on all the machines, probably tonight.
  - POSIX-compliant machines
    - We're testing out a few operating systems out in the lab (2 all in ones, along with protoss and tau.
      - Tau currently has Debian GNU/Linux
      - Protoss currently has Fedora
      - One of the all-in-ones has NetBSD
      - One of the all-in-ones has Gentoo.
- Housing Schenaniganry
  - Mmmmmm I love ResLife.
  - They made us panic a little bit by \*nearly\* forcing us down to 2 suites.
    - This has \*probably\* been figured out since. It's kind of a mess.
  - They were fine with things when we moved a person from the double to the single.
  - From Ehren's conversation with Ed.
    - It was very much a panic reaction on their side.

## Floor Meeting

- Events
  - Open Lab - Saturday
  - Board Game Night - 8pm Saturday
  - Maul Showing - 4pm Mondays
  - Formal Game Night
  - IFnic
- Forms
  - Nauticock Nominations
