

Computer Interest Floor

Floor Meeting!
February 8, 2026
Anderson Tower, Floor 3.

- Thank you to those people who showed up to Video Game Night and Open Lab!
- Shirts!
 - We're likely going to be purchasing shirts for CIF!
 - We just want to make sure people are interested.
 - Keep on the lookout for more information to come.
- Gamdle.
 - It's Wordle, for Games!
 - Sam & Ehren found out about it recently, and wanted to gauge interest in people doing an event with it.
- Dues are a thing! You need to pay them!
 - Matt isn't here, but will be here soon.
 - \$25, cash or check, due to Matt by March 1st, 2026.
- Upcoming events
 - Open Lab!
 - It's this week!
 - Board Game night!
 - Not this week, but the week after.
 - Video Game Night (Far into the future).
 - A collab with Sig Ep, with a large-scale video game randomizer. (Archipelego).
 - This event could be pretty long, so we want some feedback.
 - 8-12 hours, but tag-team, so people wouldn't be playing for too long.
 - Split it up into multiple sessions, in increments of, let's say 3 hours each.
 - I think this was generally preferred.
 - Or, we could change settings of randomizers to make it take 3 hours total
 - Not ideal, though, because this is basically just a race to the finish.
- GSDC
 - Krish had some announcements of some upcoming Google Student Developer Club events! Pretty nifty, if I do say so myself.
 - We'll announce them soon. :)
